

CASE STUDY

QX PARSEMASTR

Capture vacancies faster to increase your fill ratio

BUSINESS CHALLENGE:

For a recruitment client, QX identified that during high seasonal flow team was unable to capture vacancy on real time basis. Due to high turnaround time, fill ratio of the company was falling and client was losing revenue

SOLUTION HIGHLIGHTS

- Direct integration with email client to process vacancy emails in near-real time
- Auto Identify and match duplicate jobs, candidates type, job type and client account
- Schedule alerts to account manager (e.g. Email, post master screen and daily reports)
- Summary of total vacancies received daily/weekly/monthly to help in work force management
